THIS IS YOUR SHIPPING COST GUIDE FOR LINERS (2½" & 3" Pots)

By checking this guide along with the catalog prices, you can figure approximately how much a liner will cost laid down in your area. These rates are the most that you would have to pay; in some cities the rates are lower than in the state in which the city is located.

For example, the laid down price for Berberis thun. atropurpurea to any area in Michigan would be 18c for each 2½" pot size plant. The laid down price for Viburnum burkwoodi to any area in Texas would be 22c for each 2½" pot size plant and 39c for each 3" pot size plant.

(These rates apply only to stock shipped by public carrier. [Railway express or Motor Freight.] If your orders are being delivered by our truck, please disregard this information.)
